Table 1. Interventions

To maintain effectiveness with existing workers, the following interventions were implemented. First, the medical and behavioral programs should be more tightly linked. The medical, behavioral, and the back-to-work interventions received the same level of funding throughout the program.

Table 2. Supervision Procedures

Supervision procedures are to be consistent and uniform. Supervisors are to be consistent and uniform in their supervision and follow these strategies during interventions:

Table 3. Response Measures and Outcomes

Response measures and outcomes are to be consistent and uniform. It is recommended that they will not be allowed or shown to include the intended workers if they should be considered operational at all times.
